Portfolio

PROFESSIONAL PROFILE

Skilled Full Stack Developer combining a Computer Science background from Delhi Technological University with practical MERN stack expertise. Applies advanced Data Structures and Algorithms knowledge to engineer scalable, high-performance web applications. Collaborative problem-solver committed to delivering impactful solutions in team-oriented environments.

EDUCATION

Software Development

Masai School [🔗](#)

2024 – Present

Bengaluru, India

Bachelor of Technology (Computer Science Engineering)

Delhi Technological University [🔗](#)

2022 – Present

New Delhi, India

SKILLS

- **Frontend** — HTML5, CSS3, JavaScript(ES6+), React, Responsive Design, Tailwind CSS
- **Backend** — Node.js, Express.js, RESTful APIs, WebSocket (socket.io), MongoDB, Mongoose
- **Tools & Utilities** — Git & GitHub, VS Code, Nodemon, Dotenv, Postman (API testing)
- **Authentication & Security** — JWT JSON Web Token, bcrypt.js
- **Soft Skills** — Problem Solving, Technical Communication, Collaboration, Adaptability

Experience

Software Development Intern

Web Accuracy

02/2025 – 08/2025

New Delhi, India

- Collaborated on end-to-end development of a full-stack web application, contributing to frontend architecture.
- Developed authentication flows and managed user data with MongoDB, while contributing to backend API development.
- Optimized frontend rendering and API calls, leading to faster load times and improved performance.

Software Development Intern

ReverseClinics

09/2025 – 02/2025

New Delhi, India

- Contributed to full-stack development of a web platform, working on frontend structure and implementation.
- Implemented authentication systems and handled user data using MongoDB, while assisting in backend API development.
- Improved frontend rendering and streamlined API requests, resulting in faster load times and better performance.

PROJECTS

NutriFresh

Github : [Link](#)

- Architected a scalable React/Redux frontend to manage complex dynamic cart updates and menu data efficiently.
- Built a custom API proxy to bypass CORS and added live animations for interactivity.
- Implemented secure authentication via Node, ensuring persistent user sessions and reducing login friction across the app.

Tech Stack: React, Vite, JavaScript, CSS3, Node.js

OperationCost

Github : [Link](#)

- Developed a robust RESTful API using Node.js and Express to process secure doctor and hospital bookings instantly.
- Fortified security by implementing JWT and bcrypt.js, ensuring standard encryption for user authentication and passwords.
- Built an interactive dashboard with MongoDB, optimizing schemas for efficient doctor, hospital, and booking management.

Tech Stack: MongoDB, Express.js, React, Node.js

AI Caption Web App

Github : [Link](#)

- Developed a scalable RESTful API using Node.js and Express to handle AI-powered video transcription and caption rendering.
- Fortified performance by integrating FFmpeg and Groq AI, having frame-accurate caption rendering and real-time transcription.
- Built an interactive caption editor with React and Framer Motion, optimizing animations for real-time video preview and export.

Tech Stack: MongoDB, Express.js, React, Node.js, API's

ACHIEVEMENTS

- Masai Full Stack Hackathon: Successfully delivered a full-stack project within the 24-hour challenge window. [🔗](#)
